

IBM Workplace/Lotus

IBM Workplace is a family of products that consists of Lotus Notes and Domino, IBM Workplace Collaboration Services, IBM Workplace Services Express, and IBM WebSphere Portal, and IBM WebSphere Everyplace. These offerings help to consolidate and present whatever resources users need, including business processes, collaboration capabilities, information, documents and productivity tools.

Sessions in this COS provide insight into the use and implementation of the IBM Workplace family of products. Whether you're newcomer or a seasoned veteran, you will be provided the tools to make your organization more productive, improve communications, and make it easier for people to work together. Together, Workplace and iSeries can provide an effective architecture for collaboration and communication environments.

V5R4: Domino Problem Determination	
21MH: Mon 8 - 10:45, 208 A, Minneapolis Conv Ctr	
ID:407202	
Level: Intermediate	Domino administrators need to learn all the techniques that are available to solve problems.
Course: IBM Workplace/ Lotus	In this session, learn: 1. How to diagnose and resolve Domino server problems. 2. Techniques and commands to help administer the Domino for iSeries server. 3. Troubleshooting Tips for Domino server crashes, including steps to take, information to collect, prevention procedures.
Speaker: Amy Hoerle IBM Corporation	

V5R4: Domino 7 Upgrade Considerations	
23MH: Mon 11 - 12:15, 208 A, Minneapolis Conv Ctr	
ID:460031	
Level: Advanced	Domino 7 continue to help customers protect and enhance existing messaging and collaboration investments. The newest version offers capabilities to improve user productivity, reduce TCO, extend applications and simplify administration. This presentation will cover System i5 upgrade considerations to help you in planning and upgrading your Domino environment to the latest release.
Course: IBM Workplace/ Lotus	
Speaker: Amy Hoerle IBM Corporation	

LDAP, Domino and iSeries - the Redbook	
22MJ: Mon 9:30 - 10:45, M101 C, Minneapolis Conv Ctr	
ID:410033	
Level: Beginner	LDAP-enabled directories provide phone and email addresses and help to manage server access, authorize B2B users, find experts via Knowledge Management and share a single sign-on with Enterprise Identity Mapping (EIM). Learn how to integrate and manage OS/400 with Websphere, Domino Directory, Novell and MS Active Directory using IBM's Directory Server and BlueNotes Directory products.
Course: IBM Workplace/ Lotus	
Speaker: John M. Taylor COMMON UK	

Backup and Recovery of Lotus Notes Data on iSeries	
25MJ: Mon 2 - 3:15, M101 C, Minneapolis Conv Ctr	
ID:440006	
Level: Intermediate	This session will go over all options customers have to backup Lotus Notes Data on iSeries systems! Will compare and contrast all options (including TSM - Tivoli Storage Manager) and go in details to set up, and execute instructions for save and restore of Lotus Notes data via Online Domino Backup Feature of BRMS/400! This presentation will explore full saves / incremental saves and which one to implement depending upon customer environment! Come to this session everything you need to know about Lotus Notes Backup/Restore on iSeries!
Course: IBM Workplace/ Lotus	
Speaker: Amy Hoerle IBM Corporation	
By the end of this session, attendees will be able to:	
<ol style="list-style-type: none">1. Understand Lotus Notes Backup/Restore strategies on iSeries.2. Select their own Lotus Notes backup Strategy.3. Set up Online Domino Backups.	

Domino Application Development - The Details

25MN: Mon 2 - 3:15, M100 E, Minneapolis Conv Ctr

ID:460138

Level:
Advanced

This session will show you some of the more advanced things you can do in Domino such as:

Course:
IBM Workplace/
Lotus

1. Script libraries
2. Using include files shipped with Domino
3. Debugging Domino applications
4. and much more!

Speakers:
Kim Greene
Kim Greene
Consulting , Inc.
Mac Guidera
IBM Corporation

V5R4: IBM Workplace for iSeries Strategy

32MI: Tue 9:30 - 10:45, 206 A/B, Minneapolis Conv Ctr

ID:460060

Level:
Advanced

Course:
IBM Workplace/
Lotus

Speaker:
Mardi
Donahoe
IBM Corporation

The IBM Workplace Portfolio provides new options for collaboration, including lightweight messaging for current underserved messaging users, distance learning, and sophisticated organized user interfaces. And, choices such as LINUX desktops are now an option! Companies large and small are investigating and implementing Workplace solutions to provide better teaming tools along with the current messaging structure, whether it is Domino messaging or Exchange messaging. Invest an hour to come learn how the Workplace Portfolio of products could enhance your environment.

Designing and Architecting Domino Applications

26MO: Mon 3:30 - 4:45, M100 F, Minneapolis Conv Ctr

ID:460063

Level:
Advanced

This session will take you through the process you need to follow to successfully design and architect a Domino application. There are many different factors that need to be taken into account before starting to develop any Domino application.

Course:
IBM Workplace/
Lotus

Speaker:
Mac Guidera
IBM Corporation

This session will show you the ropes when it comes to architecting Domino solutions.

IBM Workplace: Collaborative Learning

33MI: Tue 11 - 12:15, 206 A/B, Minneapolis Conv Ctr

ID:460061

Level:
Advanced

Course:
IBM Workplace/
Lotus

Speaker:
George
Hansen
IBM Corporation

This session will introduce you to IBM Workplace Collaborative Learning and present an overview of the innovative collaborative capabilities of the Lotus Workplace products. Learn about the considerations for installing and deploying the Lotus Workplace platform and develop a basic understanding of the Lotus Workplace architecture.

Single Signon & EIM - Extract, Transform & Load

32MK: Tue 9:30 - 10:45, M101 A/B, Minneapolis Conv Ctr

ID:450055

Level:
Intermediate

Course:
Security
Management

Speaker:
John M.
Taylor
COMMON UK

With Enterprise Identity Mapping you can achieve single signon. But how do you collect all the IDs, map them to each other and publish them to EIM? You need to build a 'people warehouse'. As with a data warehouse, you must Extract, Transform and Load (ETL). Level: Basic

At the end of this session by an EIM Redbook author you will understand:

1. EIM concepts
2. ETL with EIM

Building Workflow Applications with Domino

35MI: Tue 2 - 3:15, 206 A/B, Minneapolis Conv Ctr

ID:460134

Level:
Advanced

Course:
IBM Workplace/
Lotus

Speakers:
Mac Guidera
IBM Corporation
Kim Greene
Kim Greene
Consulting , Inc.

Domino is a very robust collaboration environment. One of the huge benefits of this collaborative environment is the ability to use the workflow capabilities within Domino to automate a number of processes in your organization.

Come to this session to learn the basics of workflow and how you can use it in your applications. This session will show you how to get started with adding workflow capabilities to your applications.

Domino 7 Web Services

36MI: Tue 3:30 - 4:45, 206 A/B, Minneapolis Conv Ctr

ID:500223

Level:
All

Course:
IBM Workplace/
Lotus

Speaker:
Mac Guidera
IBM Corporation

SOA technologies are becoming mainstream throughout the IBM product line and beyond. IBM Lotus Domino 7 makes it easy to get started with Web services, and this session will provide the insights to make it even easier. We will describe how Web services support is integrated into Lotus Notes and Domino 7, and how you can take advantage of Web services technologies in your applications with LotusScript and/or Java.

IBM Workplace Deployment

41MI: Wed 8 - 9:15, 206 A/B, Minneapolis Conv Ctr

ID:480020

Level:
Intermediate

Course:
IBM Workplace/
Lotus

Speakers:
George
Hansen
IBM Corporation
Oko Swai
IBM Corporation

This session will present the process to deploy IBM Workplace Collaboration Services and IBM Workplace Services Express. Included in the session will be common mistakes to avoid. Directory Services considerations.

By the end of this session, attendees will be able to:

1. Deploy Workplace Collaboration Services and Workplace Services Express.
2. Directory Considerations.
3. Understand system requirements for install.

INTEGRATED SEMINAR: Domino Administration

41MO: Wed 8 - 4:45, M100 F, Minneapolis Conv Ctr

ID:500156

Level:
All

Course:
IBM Workplace/
Lotus

Speakers:
Amy Hoerle
IBM Corporation
Kim Greene
Kim Greene
Consulting, Inc.
Trevor
Tallackson
IBM Corporation

Integrated Seminars provide in-depth education on a specific subject, are part of the general conference and include lecture and lab components. Signing up for an Integrated Seminar is a commitment for a full day of the conference; be sure to stay for the entire seminar so you won't miss critical education! There is no additional fee and seats are limited. Registration is required via the lab registration system.

Domino Administration Seminar:
Come learn how to manage and be proactive with Lotus Domino administration. This hands-on workshop will help you gain the skills necessary to manage a Domino iSeries environment. This workshop will help you solve common Domino administration mistakes and cover the following topic areas: policy implementation, administration process, out of office agent, maintenance, performance tuning, and Domino 7 enhancements. By the end of this workshop you will have a clear understanding of you to successfully manage a Domino for iSeries environment.

In this this seminar, attendees will:

1. Learn about the out of office functionality, administration process, Domino 7 Domino Domain Monitoring (DDM) and policies.
2. Learn how to secure your Domino server as well as manage spam.
3. Learn Domino Tuning Tips including how to better manage your operating system with proper memory pool allocation, disk balancing, transaction logging, IFS settings, run-time prioritization, and TCP/ IP and network configurations.
4. Learn mail file management tips including how to reduce mail file sizes with built-in archiving support.
5. Perform labs that will give you a hands on look at Domino CL commands, policies, the administration process, nsds, DDM, BRMS and a chance to debug a server that will not start.

As a bonus, Domino development labs will be available. You may choose to optionally perform the development labs or take them home with you. These labs will show you the basics for writing a LotusScript application including how to find a bug using the LotusScript debugger.

LAB: Integrated Seminar

43LB: Wed 11 - 12:15, 200 B, Minneapolis Conv Ctr
