

# Project Management

Managing a project is one of the more difficult tasks in IT. Project management sessions deal with all areas of project management, including scope, time, cost, quality, human resources, communications, risk, and procurement. Speakers in these sessions provide guidance and share their experiences in managing all aspects of IT projects from initiating and planning, through executing and controlling, to closing.

<b>Time &amp; Project Management with Lotus</b>	
<b>23ME: Mon 11 - 12:15, Cheekwood F, Opryland Hotel</b>	
<b>ID:420026</b>	
<b>Level:</b> Beginner	Do you find TM and PM tools like MS Project too complex for your simple office-based projects? Do they integrate with your daily email, calendar and To Do items and support remote users or do they live in a world of their own? Come and see how to manage your time and simple projects with Lotus Notes, Domino and Quickr.
<b>Course:</b> Project Management	
<b>Speaker:</b> John M. Taylor Typex Group	

<b>Project Management - From a Mountain Biking Point of View</b>	
<b>36MA: Tue 3:30 - 4:45, Hermitage A, Opryland Hotel</b>	
<b>ID:520040</b>	
<b>Level:</b> All	How many more presentations on Project Management can we have? Well, hopefully, at least one more. But it has to be the right sort of presentation; one that gets to the heart of what you need to do and how you need to think to survive whatever a project throws at you. And yet, one that is pleasant to the ear, not silly but with just enough humor and common sense to keep you tuned in. Come and see Project Management as it's never been seen before - through the eyes of a donut eating, Red Bull drinking 'I can totally ride down that, dude' Mountain Biker.
<b>Course:</b> Project Management	
<b>Speaker:</b> David W. Shirey Shirey Consulting Services	
	This session includes: 1. Pumped up and ready to rock - laying the ground work. 2. Mud, sand, and loose gravel - dealing with unforeseen problems. 3. Riding off that last 4 foot drop - achieving a successful completion.

<b>The 7 Steps for a Successful Paperless Project</b>	
<b>37GG: Tue 5 - 6:15, Governor's Ballroom D, Opryland Hotel</b>	
<b>ID:520145</b>	
<b>Level:</b> All	Going paperless is one of those ideal goals for any company. Document management, imaging, archiving, and a gamut of other technologies exist to try to accomplish the task of reducing the amount of paper we manage. In this presentation we will explore why most implementations fail to give the expected return and how you should go about planning, executing, controlling and managing your paperless project.
<b>Course:</b> Project Management	
<b>Speaker:</b> Dennis Sylvestre Quadrant Software	By following a proven 7 steps methodology, you can get your project going, or make sure that when you do start, you have all bases covered for a successful implementation.

<b>Who Manages the Project Manager?</b>	
<b>54GB: Thu 12:30 - 1:45, Governor's Chamber E, Opryland Hotel</b>	
<b>ID:520147</b>	
<b>Level:</b> All	We have all had our share of projects that failed to deliver the expected results. And we all thought that having a project manager in charge was the solution. So what went wrong? And how can we avoid repeating this in a future project? Drawing from years of experience of IT implementations, this presentation will address the key aspects of successfully managing a project manager. You will understand why simply giving someone the job is not enough to ensure it will be done right and how to get a solution provider to deliver on its promises.
