

IT Leadership and Management

Microchip technology has transformed the world into a global marketplace where leadership and management opportunities abound. Leadership and Advocacy sessions offer IT professionals a unique opportunity to strengthen their leadership and management capabilities by adding new knowledge, skills, attitudes, and habits to their leadership toolbox. Leaders are made, not born. Come find the leader within!

Personal Leadership Development and IT Professionals	
26CA: Mon 3:30 - 4:45, Canal A, Opryland Hotel	
ID:500089	
Level: All	The majority of today's IT professionals have invested a great deal of time and resources into developing their analytical and technical skills. Because of this, many have not had the opportunity to sharpen their leadership and management skills and are not always prepared for these roles. Operating from a formal personal leadership development plan is critical first-step in closing this gap and improving your knowledge, skills, attitudes, and habits.
Course: IT Leadership and Management	
Speaker: Dr. Jim Chambers Institute for Org Leadership	By the end of this session, attendees will be able to: <ol style="list-style-type: none">1. Recognize the value of operating from a personal leadership development plan.2. Identify gaps in current knowledge and skill sets.3. Improve knowledge, skills, attitudes, and habits related to leadership and management roles.4. Understand how to develop and use a workable personal leadership plan.

Requirements: Influence IBM 101	
32AE: Tue 9:30 - 10:45, Delta Ballroom D, Opryland Hotel	
ID:540196	
Level: Beginner	You have a great opportunity to let IBM know your specific requirements for i5/OS (hardware, software and services). A key benefit of COMMON membership is the privilege of submitting a requirement to IBM. If you have tried to enter a requirement through the iSociety or COMMON's web site the experience could be harrowing. If you have a requirement you want to send to IBM and not sure how to get it entered, please come to this session to find all the answers to your questions.
Course: IT Leadership and Management	
Speaker: Ron Newman NewMark Technologies	What you will get from this session is: <ol style="list-style-type: none">1. How to enter a requirement through iSociety or COMMON' web site2. An understanding of how your requirement will be processed3. How to track your requirement.

Women as Leaders in the Workplace	
47ME: Wed 5 - 6:15, Cheekwood F, Opryland Hotel	
ID:540042	
Level: All	Any woman can be a leader in the workplace. Come to this session and learn how: <ol style="list-style-type: none">1. Being a woman is an advantage.2. To effectively work with other women to learn from each other and support each other.3. To set goals to use your personality, skills, and talents to be the best in your field.
Course: IT Leadership and Management	
Speakers: Anne C. Lucas Genisys Group Inc Lynette Chambers IOL Global	

Transformational Leadership and the IT Professional	
52ME: Thu 9:30 - 12:15, Cheekwood F, Opryland Hotel	
 ID:500088	
Level: All	Constant change, organizational complexity, and time-to-market have increased the need for effective leadership by IT professionals at all levels. Research shows that transformational leaders achieved significantly higher levels of effort, performance, satisfaction, and commitment from employees than those using traditional approaches to leadership and management.
Course: IT Leadership and Management	
Speaker: Dr. Jim Chambers Institute for Org Leadership	By the end of this session, attendees will be able to: <ol style="list-style-type: none">1. Identify current leadership expectations of IT professionals across industries.2. Understand both transactional and transformational leadership models.3. Improve personal leadership by adopting a more transformational model.4. Increase individual and team performance and job satisfaction.
