<b>MONDAY</b>									
9:00-10:00AM	Give me an hour, and I'll give you a week!	BRMS - How It Can Save YOU!	Latest IBM i Features for 7.5 and beyond	Experience the Wonders of AI: Come Marvel With Me!	Introduction to Open Source on IBM i	Intro to IBM i Security	IBM Power S1012: The Latest Hardware for IBM i	Analyzing Geospatial Data Using Db2 for i	
10:15-11:15AM	IBM i Networking Overview	Modern Development using Intelligent Buildable Projects with IBM i Project Explorer and BOB	What's New in Db2 for i	AI and IBM i: tying the worlds together	Roadmap to Secure Ops on IBM i	Service Programs and Unit Testing - The Perfect Pair.	Everything they never taught you!	Why and How to read a Job log	
11:30AM-12:30PM	Where to Start with IBM i Open Source Package Management	What's New in PowerHA	What's New and Exciting in RPG	Merlin, DevOps, Git, and Modern Development on IBM i	A Live Demo of Navigator for i	IBM i Strategy, Roadmap and Innovation	Database Modernization - An Evolution Not Revolution	Planning a Smooth Move of your IBM i to the Cloud	
2:30-3:30PM	Temporal Tables Time Travel Is Cool	Choosing the right HA/DR Solution	ACS and Db2 for i Explained	Beyond the Buzz: Practical Implementations and Concerns of AI	What's New with Open Source & IBM i	What you need to know when moving to the Cloud	Git and IBM i - How to Build Your Source	Developers and Security: Like Oil and Water?	
3:45-4:45PM	Single Sign On Overview	IBM i Recovery – Respond to a Cyber Attack	Let's Explore WatsonX!	Options for Consuming REST APIs from RPG	Introduction to the IBM i Navigator Performance Tasks	Getting Started with SQL Functions and Procedures	Developing With Developers In Mind	Are you a Sail or an Anchor?	Unlocking IBM i: Insights and Solutions for the Next Generation of Professionals
5:00-6:00PM	Honey, I looped the data: Recursive CTES	Turn up the Power: External Disk and Hardware Replication on i... A Case Study!	SQL for System and Storage Management	30 Python Tips in 60 Minutes	Building a Successful IFS Security Strategy	What you need to Know to Successfully Upgrade to IBM i 7.5 or 7.4	CEF Next Generation on IBM i	N2i Roundtable	

	Calusa A	Calusa B	Calusa C	Calusa F	Calusa G	Calusa H	Blue Heron A	Blue Heron B-C	Driftwood
<b>TUESDAY</b>									
8:30-9:30AM	IBM i ACS Overview	Elevate your SQL Capabilities with Lateral Joins, Pivots, and Window Functions	What is Open AI and Why Should You Care?	Integrating Open Source on IBM i: Advanced Topics and Optimization	Navigator for i from a Developer's Perspective	API Enable Your Database	Step-by-Step Guide to Creating Virtual IBM i Partitions Hosted by IBM i	Command Jeopardy	Keep Your System up to Date: Image Catalogs - How They Changed my Life!
9:45-10:45AM	Open Source Always Wins. Let's Talk about it	Power10 for the COMMON User	Practical VSCode for the RPG Developer, Including Debugging	Ai Ops -Automation, Ai for monitoring and managing your IBM i	Audit Journaling with Navigator for i	Under the Hood - A Deep Dive into the SQL Query Engine	Live Demo: Deploying PowerHA and Independent ASPs	Understand Your Performance Signature	
11:00AM-12:00PM	HMC, IBM i, FSP, BMC, and Firmware: Putting all the pieces together.	Accelerate your Excel!	How Refactoring Helps Bulletproof Your Application	IBM i Security Best Practices	Care and Feeding of IBM i.	Use AI to Build an IBM i Web App in Under 10 Minutes — No Coding Required!	Live Demo: Managing PowerHA Solutions	30 PHP Tips in 60 Minutes	
2:00-3:00PM	Don't Lock Yourself Out! Securing Admin Servers	Broaden Your Reporting Capabilities Using Python	A Panel of Experts on AI	Providing RPG REST APIs on IBM i	The Ninja Guide to Building Teams and Creating Engagement	Navigator for i - An Administrator's View	Top 5 best practices for Integrating IBM i applications with Salesforce and other 3rd party apps	Modernization of 21st century skills	
3:15-4:15PM	Set up a Shared NFS Drive to Deploy PTFs and Upgrades with Image Catalogs	Fortify and Conquer: Secure Coding Strategies for IBM i Developers	Cool things in Navigator to be a RockStar System Administrator	Quick Spreadsheets through PHP and Python	SQLRPGLE the better file Access	Accelerate your SQL Queries with SMP	How to Approach API Management to Enable the Best Deployment Strategy	Managing the startup and shutdown of IBM i	
4:30-5:30PM	ACS Deployment Guide	SQL Palette Expansion	Troubleshooting tips and tricks	AI for RPG Programming: A Story in Progress	Ransomware and IBM i	Use Service Commander to manage ALL your stuff	API Examples Using RPG, Node.js, PHP and Python		

	Calusa A	Calusa B	Calusa C	Calusa F	Calusa G	Calusa H	Blue Heron A	Blue Heron B-C	Driftwood
<b>WEDNESDAY</b>									
8:30-9:30AM	IBM i Shops Prepare for DevOps & Agile	Snapshots, FlashCopy & Cybersecurity Resiliency with Safeguarded Copy	Using SQL in Everyday Life	Hands on Reinforcement Learning (AI) - Part 1	Getting Started VS Code and IBM i Workshop	IBM Power Virtual Server for an IBM i Customer	IBM i Network Troubleshooting and Diagnostics	Apache Kafka: Why and How?	
9:45-10:45AM	Handling JSON with DATA-INTO and DATA-GEN in ILE RPG	Clean up your i	RPG Source Code Refactoring With a Splash of Modern Tooling	Hands on Reinforcement Learning (AI) - Part 2		Db2 for i Inside of VS Code	NVMe is your friend	IBM i Services for the Developer	
11:00AM-12:00PM	UNIXCMD- Integrating RPG with Open Source	Managing IBM i Fix Information (PTFs)	Forget ODBC! Here's a New Db2 Connector	Accessing the IBM i with Rest APIs	Administer and Restrict IBM i ACS	Panning for Performance Gold with Visual Explain	Geographic Mirroring: PowerHA for Cloud and Hybrid-Cloud	Simple Steps to Improving Data Security on IBM i
